

Community clubs play an essential part in the social life of many Canberrans, as meeting places and as sponsors of community events. The ACT Government wants to support clubs in becoming heat and smoke refuges for local communities during extreme weather events.

Please outline the measures your club could implement to become an extreme weather refuge site.

Actions could include:

- Providing a separate area away from gaming machines/bar
- Ability to serve food throughout the day/increase meal service if required
- Availability of a generator in the event of a power outage
- Operating fine particulate/smoke air filtration systems and if yes, what type?

Please note: This information will be shared with the Justice and Community Safety Directorate to assist in the development of guidelines for official extreme weather refuge sites.
